## SCIENCE MADE SIMPLE EBOOKS 2019

Author: Steve Connor

Release Date: Lanzamiento previsto: @@expectedReleaseDate@@

"Every child goes through a phase of asking embarrassingly simple questions. Why is the sky blue? Why do we dream? Where did the Moon come from? Even the most educated adult can be stumped by such inquiries. But the curiosity behind them and the urge to satisfy it lies at the heart of science.

This compendium of questions and answers is based on a weekly column first launched in The Independent more than 15 years ago under the rubric "Technoquest". It was inspired by the realisation that many readers had scientific conundrums niggling away at the back of their minds and would welcome a service that answered them."
