## SCIENTIFIC CREATIONISM EBOOKS 2019

Author: Dr. Henry M. Morris

Release Date: Lanzamiento previsto: @@expectedReleaseDate@@

The story of the origin of all things: Does the scientific evidence support special creation or atheistic evolution? Authoritative and thoroughly documented, Scientific Creationism is easily understood by readers with non-scientific backgrounds. Teachers, students, pastors, and other witnessing Christians can now be equipped with the convincing evidence for special creation. Updated and expanded, Scientific Creationism is a book that has changed the lives of people for Christ - people who have been blinded by the current origin-myth, evolution. All ministers of the gospel, teachers and professors of our Christian schools on the primary and secondary level, should read this book. A copy should be placed in every church and school library, and used as a textbook in our Christian high schools and colleges. - Rev. C. Van Schouwen
