## SEARCH FOR EXTRATERRESTRIAL LIFE ESSAYS ON SCIENCE AND TECHNOLOGY EBOOKS 2019

Author: P. Day

Release Date: Lanzamiento previsto: @@expectedReleaseDate@@

This volume of selected Evening Discourses from the Royal Institution offers an authoritative and accessible summary of current thinking in many areas of science and technology. The subjects are wide-ranging, from studies of Venus and what they tell us about the Earth, the history and possible future of television, to the interface between art and science - using spectroscopy to analyse the pigments in Medieval manuscripts. Will we be able to build machines with molecular-based

memories? How do you deal with an historic tower 'founded on jelly and slowly inclining to the point at which it is about to fall over'? The answers to these and other questions are to be found within. - ;Are we alone or are there other intelligent forms of life in the Universe? Sir Arnold Wolfendale explores the ways in which Scientists' thinking on this question has evolved, including an hypothesis to estimate how probable intelligent extraterrestrial life might be, and a discussion of the Martian meteorites that were the subject of recent speculation about life on Mars. Meteorites in general, where they come from and what we can learn from them, are discussed by Monica Grady, a researcher in interstellar components in meteorites and micrometeorites. Together with other essays by experts in their fields, this volume of selected Evening Discourses from the Royal Institution offers an authoritative and accessible summary of current thinking in many areas of science and technology.
