## SELLING INTERVENTION EBOOKS 2019

Author: Samuel Schmid

Release Date: Lanzamiento previsto: @@expectedReleaseDate@@

This research paper deals with the question of how and in what ways the American yellow press the New York Journal in particular and its manipulated news of the humanitarian crisis in Cuba under Spanish colonial rule and the subsequent public pressure influenced the American government in the decision to intervene in 1898 (The Spanish-American War). It is argued that it was a media-driven humanitarian intervention with numerous connectors from media to politics. To evaluate this, the explanatory links and the causal mechanism/process are made clear by connecting empirical media data to modern theoretical concepts of media and politics, such as framing and agenda-setting. The findings reveal that there were several kinds of interactions between the New York Journal to the political sphere, making this case of intervention an excellent example of how (in this case, biased) information may trigger a variation in policy outcomes concerning humanitarian interventions. Seminar paper aus dem Jahr 2010 im Fachbereich Politik - Int. Politik - Region: USA, Note: 1.5, Universität Luzern (Politikwissenschaftliches Seminar), Veranstaltung: Hauptseminar: The Politics of Humanitarian Intervention.
