SERENGETI III EBOOKS 2019

Author: A. R. E. Sinclair, Craig Packer, Simon A. R. Mduma u0026 John M. Fryxell

Relese Date: ;Lanzamiento previsto: @@expectedReleaseDate@@

Serengeti National Park is one of the world's most diverse ecosystems, a natural laboratory for ecology, evolution, and conservation, with a history that dates back at least four million years to the beginnings of human evolution. The third book of a ground- breaking series, u003ciu003eSerengeti IIIu003c/iu003e is the result of a long-term integrated research project that documents changes to this unique ecosystem every ten years.u0026#xa0; u0026#xa0;u0026#xa0;u0026#xa0;u0026#xa0;u003cbr /u003eu003cbr /u003eBringing together researchers from a wide range of disciplines—ecologists, paleontologists, economists, social scientists, mathematicians, and disease specialists— this volume focuses on the interactions between the natural system and the human-dominated agricultural system. By examining how changes in rainfall, wildebeest numbers, commodity prices, and human populations have impacted the Serengeti ecosystem, the authors conclude that changes in the natural system have affected human welfare just as changes in the human system have impacted the natural world. To promote both the conservation of biota and the sustainability of human welfare, the authors recommend community-based conservation and protected-area conservation. u003ciu003eSerengeti IIIu003c/iu003e presents a timely and provocative look at the conservation status of one of earth's most renowned ecosystems.u0026#xa0;u0026#xa0
